

JoongWon SHIN

Seoul National University, Department of Computer Science and Engineering
Email: leodal@snu.ac.kr | GitHub: github.com/joongwon0204

Education

Seoul National University

Mar. 2022 – Present

B.S. in Computer Science and Engineering

3rd year, 1st semester | Completed Credits: 72

GPA: 4.04 / 4.30 | Major GPA: 4.11 / 4.30

Military Service: Completed mandatory military service, May 2023 – Oct. 2024

Honors and Scholarships

National Scholarship for Sciences and Engineering

Awarded 2022

Four-year full-tuition undergraduate scholarship awarded by Korea Student Aid Foundation

Research Interests

- AI accelerators and efficient AI computing
- Computer architecture and hardware systems
- AI systems and hardware-software interfaces

Relevant Coursework

Systems and Architecture:	Computer Architecture, Logic Design, System Programming, Hardware Systems Design
AI and Machine Learning:	Computer Vision
Algorithms and Theory:	Data Structures, Algorithms, Discrete Mathematics, Automata Theory
Mathematics and Statistics:	Engineering Mathematics 1–2, Statistics
Programming and Software:	Computer Programming, Programming Practice, Software Development Principles and Practice

Intern

Undergraduate Research Intern, Jae W. Lee Lab, SNU

Summer 2026

- Joined as a full-time undergraduate research intern under Prof. Jae W. Lee.
- Preparing to study computer architecture topics including AI acceleration, memory-system optimization, and processing-in-memory.

Projects

Wastory, WaffleStudio Software Project

2025

- Participated in a team-based clone coding project and gained experience with Git-based collaboration, code review, and application development.

Technical Skills

Programming:	C, C++, Python, Java, Swift
Hardware Description:	Verilog, Amaranth
Tools/Frameworks:	Git, PyTorch
